

sectionInjection: "Injection & Water",

Short concise description: injection is the process of injecting water to reservoir to keep its pressure high

Full name (if it was not):

Suggested Arabic translation: حقن المياه

sectionFormation: "Formation & Fluid Properties",

Short concise description: Characteristics of the reservoir rock and contained fluids that control flow behavior and production performance.

Full name (if it was not):

Suggested Arabic translation: خصائص الصخور والسوائل بالبنر

sectionChemistry: "Water Chemistry",

Short concise description: Produced water's composition and quality

Full name (if it was not):

Suggested Arabic translation: خواص المياه الكيميائية

fieldInjectionPressure: "Injection Pressure (psi)",

Short concise description: It shows how hard we are injecting water into the reservoir.

Full name (if it was not):

Suggested Arabic translation: ضغط الحقن

fieldInjectionRate: "Injection Rate (bbl/day)",

Short concise description: it shows how much barrels per day entering the reservoir

Full name (if it was not):

Suggested Arabic translation: معدل الحقن

fieldMAIP: "MAIP (psi)",

Short concise description: maximum allowable injection pressure

Full name (if it was not):

Suggested Arabic translation: أقصى ضغط حقن مسموح به

fieldWaterRate: "Water Rate (bbl/day)",

Short concise description: how much water per day is flowing into the reservoir

Full name (if it was not):

Suggested Arabic translation: معدل تدفق المياه

fieldWaterCut: "Water Cut (0-1)",

Short concise description: Fraction of produced fluid that is water.

Full name (if it was not):

Suggested Arabic translation: نسبة الماء المنتجة

fieldLithology: "Lithology",

Short concise description: description of a rock's physical characteristics and composition.

Full name (if it was not): **Lithology**

Suggested Arabic translation: علم وصف الصخور

fieldPorosity: "Porosity (0-1)",

Short concise description: Measure of void space in rock (0–1)

Full name (if it was not): Porosity

Suggested Arabic translation: المسامية

fieldPermeability: "Permeability (mD)",

Short concise description: Ability of rock to transmit fluids

Full name (if it was not): **Permeability**

Suggested Arabic translation: النفاذية

fieldGRSS: "GRSS (0-100)",

Short concise description: Composite score for reinjection suitability (0–100)

Full name (if it was not): **Geological ReInjection Suitability Score**

Suggested Arabic translation: مؤشر ملائمة إعادة الحقن الجيولوجية

fieldTemperature: "Temperature (°C)",

Short concise description: Temperature of water

Full name (if it was not):

Suggested Arabic translation: درجة الحرارة

fieldTDS: "TDS (mg/L)",

Short concise description: Amount of dissolved salts/minerals in water.

Full name (if it was not): Total Dissolved Solids

Suggested Arabic translation: المواد الصلبة الذائبة

fieldTSS: "TSS (mg/L)",

Short concise description: Amount of suspended particles in water.

Full name (if it was not): Total Suspended Solids

Suggested Arabic translation: المواد الصلبة المعلقة

fieldOil: "Oil in Water (ppm)",

Short concise description: Amount of oil remaining in produced water.

Full name (if it was not):

Suggested Arabic translation: نسبة الزيت في الماء

fieldPH: "pH (0-14)",

Short concise description: Measures how acidic or basic the water is.

Full name (if it was not):

Suggested Arabic translation: الرقم الهيدروجيني

fieldCa: "Calcium (Ca) (mg/L)",

Short concise description: Calcium ion concentration affecting scale risk.

Full name (if it was not):

Suggested Arabic translation: تركيز الكالسيوم

fieldSO4: "Sulfate (SO₄) (mg/L)",

Short concise description: Sulfate ion concentration affecting sulfate-scale risk.

Full name (if it was not):

Suggested Arabic translation: تركيز الكبريتات

fieldBa: "Barium (Ba) (mg/L)",

Short concise description: Barium ion concentration affecting barite-scale risk.

Full name (if it was not):

Suggested Arabic translation: تركيز الباريوم

fieldSr: "Strontium (Sr) (mg/L)",

Short concise description: Strontium ion concentration affecting celestite-scale risk.

Full name (if it was not):

Suggested Arabic translation: تركيز السترونيوم

fieldCRI: "CRI",

Short concise description: Corrosion risk score for equipment and injection system.

Full name (if it was not): Corrosion Risk Index

Suggested Arabic translation: مؤشر خطر التآكل

fieldSRI: "SRI",

Short concise description: Scaling risk score for mineral precipitation and blockage.

Full name (if it was not): Scaling Risk Index

Suggested Arabic translation: مؤشر خطر الترسبات
